FREELANCE PORTFOLIO

DotPro Innovation

Freelance Software Developer & SaaS Builder

Management software, SaaS products and business systems that actually work.

About

Under the DotPro Innovation name, I build complete management software and SaaS products for businesses, schools, hospitals, restaurants and housing societies. Custom systems in Python, Node.js, React and CodeIgniter, delivered phase by phase and shaped around real business workflows.

Services

Custom Management Software
HRMS, school, inventory, logistics, society billing and more, built around your process.

SaaS Products
Multi-tenant, subscription-based systems: POS, restaurant and reporting dashboards.

Web Stores & Websites
E-commerce stores and business websites in CodeIgniter and React.

Dashboards & Reporting
Data import from Excel, CSV and databases, with cleaning, joins and live dashboards.

Skills & Stack

Backend: Python, Django, Node.js, Express, CodeIgniter 3, REST APIs
Frontend: React, Vite, Bootstrap, jQuery / AJAX, HTML / CSS
Database: PostgreSQL, MySQL
Delivery: Phase-by-phase builds, Role-based access, Multi-tenant SaaS, Reports & exports

1. Adaptive Learning Platform

EDTECH | PRODUCT

An adaptive learning platform where students work through lessons and quizzes, and the system suggests the next content based on their progress. Teachers and admins get progress tracking and reports.

Modules: Courses & Content, Quiz Engine, Progress Tracking, Teacher Dashboard, Admin Panel, Reports
Stack: Python, React, Database

2. DotPro Insight

ANALYTICS SAAS | SAAS

DotPro Insight is a SaaS tool where users import their data (Excel, CSV, SQL or any database), clean and join it, and then build dashboards and reports without writing code.

Modules: Data Import, Data Cleaning, Joins, Dashboards, Reports, Workspaces & Users
Stack: Python, SaaS, SQL
Live demo: https://dotproanalysis.vercel.app/

3. School Management System

EDUCATION | ERP

A complete ERP for schools that handles daily operations: student records, attendance, fees and payments, exams and reports, all with role-based access.

Modules: Admissions, Students, Staff, Fees & Payments, Attendance, Exams & Results, Reports
Stack: CodeIgniter 3, MySQL, Bootstrap, jQuery
Live demo: https://www.musabcollection.com/school_management

4. Enterprise Inventory System

SUPPLY CHAIN | ERP

A multi-tenant inventory management system that tracks stock across multiple warehouses and locations. Item tagging, goods receipt, gate pass, transfers and wastage are all included.

Modules: Items & Categories, Warehouses & Locations, GRN, Gate Pass, Transfers, Wastage, Reports
Stack: CodeIgniter 3, MySQL, Bootstrap, jQuery
Live demo: https://musabcollection.com/inventory/

5. FlowHCM HRMS

HUMAN RESOURCES | ERP

FlowHCM (DotPro HRMS) digitizes the whole HR cycle: People (employees, recruitment, onboarding, exit), Time & Pay (attendance, leave, payroll, loans, expense claims), Performance (appraisals, KPIs, training, promotions, discipline) and workspace tools such as assets and administration, all with role-based access.

Modules: Employees, Recruitment, Onboarding, Onboarding Requests, Exit Management, Attendance, Leave, Payroll, Loans & Advances, Expense Claims, Reports, Appraisals, KPI Performance, Training, Discipline & Grievance, Promotions, HR Letters, Dashboard, Company, Assets, Organisation, Administration

Stack: CodeIgniter 3, MySQL, Bootstrap, jQuery

---

6. LogiPro Logistics System

LOGISTICS | ERP

LogiPro is built for logistics companies and manages national and international shipments, customers and inventory.

Modules: Shipments, Tracking, Customers, Inventory, Users & Roles, Reports

Stack: CodeIgniter 3, MySQL, Bootstrap

Live demo: https://musabcollection.com/logistic/

---

7. Restaurant Management & POS

RESTAURANT SAAS | SAAS

A SaaS system for restaurants that handles dine-in, takeaway and online delivery orders. A master branch controls all branches, with supply chain and integrations included.

Modules: POS, Menu & Recipes, Branches, Supply Chain, Delivery, Reports, Billing & Plans

Stack: Python, SaaS, PostgreSQL

---

8. Point of Sale (POS) SaaS

RETAIL SAAS | SAAS

A POS SaaS for retail businesses. Each business gets its own admin, counter users and shelf management, and limits apply according to the subscription plan.

Modules: Counters, Products & Shelves, Sales & Returns, Users & Roles, Subscriptions, Reports

Stack: Python, SaaS, PostgreSQL

Live demo: https://python-pos.vercel.app/login/

---

9. Society Billing & Maintenance

REAL ESTATE | SOFTWARE

A system for society offices that manages members, plots or units, maintenance and utility bills, and keeps track of payments and outstanding amounts.

Modules: Members & Units, Billing, Collections, Complaints, Reports, Admin

Stack: CodeIgniter 3, MySQL, Bootstrap, jQuery

---

10. E-commerce Store

E-COMMERCE | WEBSITE

A custom e-commerce store where customers browse products, add them to the cart and place orders, while an admin panel manages products, orders and customers.

Modules: Catalog, Cart & Checkout, Orders, Customers, Admin Panel
Stack: CodeIgniter 3, MySQL, Bootstrap, jQuery

11. Leads Management System

CRM | CRM

A CRM that imports, assigns and tracks leads. Agents work their leads and write notes, and deals are closed through closers and an approval workflow.

Modules: Leads, Assignment, Agent Notepad, Approvals, Users & Roles, Reports
Stack: CodeIgniter 3, MySQL, Bootstrap, jQuery
