DotPro Insight

ANALYTICS SAAS | SAAS

A reporting and dashboard SaaS: dashboards and reports from any data source.

Overview

DotPro Insight is a SaaS tool where users import their data (Excel, CSV, SQL or any database), clean and join it, and then build dashboards and reports without writing code.

Live Demo

https://dotproanalysis.vercel.app/

Key Features

- Import from Excel, CSV, SQL and other databases
- Data cleaning: duplicates, missing values and formats
- Table joins and data transformation
- Drag-and-drop dashboards and charts
- Saved reports and export
- Multi-tenant SaaS accounts

Modules in Detail (6)

1. Data Import

Upload Excel and CSV files or connect SQL and other databases to bring all your data into one workspace.

2. Data Cleaning

Fix duplicates, missing values, wrong formats and inconsistent text with guided cleaning steps.

3. Joins

Combine tables from different files or databases with visual joins on matching columns.

4. Dashboards

Build dashboards with charts, KPIs and filters using drag and drop, with no code needed.

5. Reports

Save report layouts and export them to share with your team.

6. Workspaces & Users

Separate workspaces per organisation, with team members, roles and subscription plans.
