Enterprise Inventory System

SUPPLY CHAIN | ERP

Multi-tenant inventory with warehouses, locations, GRN, gate pass and transfers.

Overview

A multi-tenant inventory management system that tracks stock across multiple warehouses and locations. Item tagging, goods receipt, gate pass, transfers and wastage are all included.

Live Demo

https://musabcollection.com/inventory/

Key Features

- Multiple warehouses and storage locations
- Item tagging and stock tracking
- GRN (Goods Received Note)
- Gate pass in and out
- Warehouse-to-warehouse transfers
- Wastage and adjustment records

Modules in Detail (7)

1. Items & Categories

Item master with categories, units, tags and reorder levels.

2. Warehouses & Locations

Multiple warehouses, each divided into locations such as racks and bins, with stock tracked at every level.

3. GRN

Record goods received against purchases with quantity checks and automatic stock updates.

4. Gate Pass

Controlled gate-in and gate-out passes for goods entering or leaving the premises.

5. Transfers

Move stock between warehouses or locations with a clear sending and receiving trail.

6. Wastage

Record damaged, expired or lost items with reasons so stock stays accurate.

7. Reports

Stock on hand, movement history, wastage and transfer reports.
