LogiPro Logistics System

LOGISTICS | ERP

National and international shipments in a single system.

Overview

LogiPro is built for logistics companies and manages national and international shipments, customers and inventory.

Live Demo

https://musabcollection.com/logistic/

Key Features

- National and international shipment booking
- Shipment status tracking
- Customer and consignee management
- Inventory module
- Role-based users and branches
- Operational and financial reports

Modules in Detail (6)

1. Shipments

Book national and international shipments with sender, receiver, weight, charges and a tracking number.

2. Tracking

Status updates along the route so customers and staff can always see where a shipment is.

3. Customers

Customer and consignee records with their shipment and billing history.

4. Inventory

Stock handling for goods held within the logistics operation.

5. Users & Roles

Branch-level users with role-based access.

6. Reports

Shipment, revenue and operational reports.
